## PH

SENIOR SOFTWARE ENGINEER

+91 8593963515

ninshidph@live.com

Kerala, India

### ABOUT ME

Dynamic and results-oriented Software Engineer with 11 years of experience in full-stack development, specializing in ASP.Net technologies. Proficient in designing, developing, and deploying robust web and mobile applications using ASP.Net MVC, ASP.Net Core, C#, JavaScript, jQuery, and CSS. Skilled in the entire software development lifecycle (SDLC), including architecture, Agile methodologies, and deployment strategies. Adept at problem-solving and continuously seeks out optimal solutions to complex technical challenges. Experienced in version control systems (GIT, SVN, TFS) and passionate about continuous learning and self-education. Strong communication skills with a proven ability to collaborate effectively within cross-functional teams. Committed to delivering high-quality software solutions that meet and exceed client expectations.

### EDUCATION

2009 – 2012

**BSC COMPUTER APPLICATIONS**

Manonmaniam Sundaranar University, India

2006 - 2008

**PLUS TWO**

Board of Higher Secondary  
Examination, Kerala

1997 - 2006

**SSLC**

Board of Public Examination, Kerala

### CURRENT WORK EXPERIENCE

**SENIOR SOFTWARE ENGINEER | 2024 – Present**

Harris Financial

- Designing, developing, and maintaining high-quality software solutions.
- Providing technical leadership and guidance to junior developers.
- Contributing to project planning, estimation, and prioritization.
- Collaborating with project managers to define project scope, requirements, and timelines.
- Understanding and implementing software development life cycle methodologies, including Agile and Scrum.
- Participating in architecture discussions and providing insights into system design and implementation.
- Experience with version control systems such as GIT, SVN, and TFS.

### LANGUAGES

- English
- Malayalam
- Hindi

### HARD SKILLS

#### BACK-END TECHNOLOGIES

- Asp.net Core
- Asp.net Core MVC
- Entity Framework Core

#### FRONT-END TECHNOLOGIES

- Angular
- React
- Knockoutjs

#### IDE

- Visual Studio
- Visual Studio Code

#### DATABASE

- SQL Server
- MongoDB
- Mysql

#### VERSION CONTROL

- GitHub
- Azure Git

#### SOFTWARE DEVELOPMENT PLATFORM

- Azure DevOps
- Render
- Vercel

### TECHNOLOGY STACK

## PREVIOUS WORK EXPERIENCE

### SENIOR SOFTWARE ENGINEER | 2020 – 2024

HIDDEN BRAINS INFOTECH PVT LTD

- Designing, developing, and maintaining high-quality software solutions.
- Providing technical leadership and guidance to junior developers.
- Contributing to project planning, estimation, and prioritization.
- Collaborating with project managers to define project scope, requirements, and timelines.
- Understanding and implementing software development life cycle methodologies, including Agile and Scrum.
- Participating in architecture discussions and providing insights into system design and implementation.
- Experience with version control systems such as GIT, SVN, and TFS.
- Managing code repositories, branching, merging, and resolving conflicts effectively.
- Collaborating with cross-functional teams including developers, designers, and quality assurance engineers to deliver high-quality software solutions.
- Proficiency in developing user interfaces and enhancing user experience.

### SENIOR SOFTWARE ENGINEER | 2018 – 2020

NIIT Technologies PVT LTD

- Understand client requirement and create backlogs.
- Handle database design.
- Create and manage .net core API end points to be consumed by the frontend developer.
- Effectively Participated in Agile methodology and processes.
- Responsible for developing accessible technical documentation.

### SENIOR SOFTWARE ENGINEER | 2017 – 2018

Postiefs Technlogies PVT Limited

- Hands on experience in database design and management.
- Research and development on Web API 2 applications.
- Implemented web API authentication.
- Implemented web API to an existing WPF Application.
- Responsible for implementing and integrating new modules to the existing application.
- Implemented push notification across application using SignalR.

### SOFTWARE ENGINEER | 2016 – 2017

Singnet Technlogies PVT LTD

- Mentored junior developers.
- Implemented push notification across application.
- Implemented login authentication.
- Responsible for implementing and integrating new modules to the existing application.
- Used Web API.
- Used stored procedures and SQL functions extensively in the application.

## PERSONAL DETAILS

Nationality	Indian
Marital Status	Married
Gender	Male

## HOBBIES

- Music
- Travelling
- Cinemas

## **PROJECTS**

---

Project Name: **Commodity Price Risk Management System** (Haris Financial)

**Feb 2024 – Present**

Responsibilities

- Understand client requirement and create backlogs.
- Handle database design.
- Create and manage .net core API end points to be consumed by the frontend developer.
- Effectively Participated in Agile methodology and processes.
- Responsible for developing accessible technical documentation.

Skills: React.js · AngularJS · .NET Core · Microsoft SQL Server · Entity Framework · Microsoft Azure · GitHub · GitHub Copilot

Project Name: **Commodity Price Risk Management System** (Haris Financial)

**Feb 2020 – 2024**

Responsibilities

- Understand client requirement and create backlogs.
- Handle database design.
- Create and manage .net core API end points to be consumed by the frontend developer.
- Effectively Participated in Agile methodology and processes.
- Responsible for developing accessible technical documentation.

Environment: Net core 8, EF core, Azure Git, SQL server 2019, Visual Studio 2022

Project Name: **Ngen- LHH (ADECCO) May 2019 – 2020**

Responsibilities

- Development of client-side components and data models.
- Development of dynamic UI components that can be widely used in the application.
- Development in Business tier (Handler classes, Business objects using C#, Web Api's) etc.
- Mentor the team to complete the product backlogs
- Development in database tier through development of stored procedures & functions.
- Effectively Participated in Agile methodology and processes.
- Responsible for developing accessible technical documentation

Environment: ASP.Net MVC 5, Knockoutjs, JQuery, JavaScript, Bootstrap, HTML, Visual Studio 2017, SQL Server 2016

Project Name: **QRISP** (Qatar Airways Interactive Security Portal) – Consulting Qatar Airways

**Feb 2018 – 2019**

Responsibilities

- Development in database tier through development of stored procedures & functions.
- Effectively Participated in Agile methodology and processes.
- Responsible for developing accessible technical documentation.

Environment: ASP.Net Core, Angularjs, Typescript, Bootstrap, HTML, Visual Studio 2017, SQL Server 2016

Project Name: **IGWorkbook** (KPMG)

**Apr 2017 – 2018**

Responsibilities

- Hands on experience in database design and management.
- Research and development on Web API 2 applications.
- Implemented web API authentication.
- Implemented web API to an existing WPF Application.
- Responsible for implementing and integrating new modules to the existing application.

**Project Name: ZealogicsHR (KPMG)**

**May 2017 – 2018**

Responsibilities

- Hands on experience in database design and management.
- Research and development on Angular 4 applications.
- Implemented push notification across application using SignalR.
- Implemented login authentication.
- Responsible for implementing and integrating new modules to the existing application.
- Used Web API.

Environment: C#, ASP.NET MVC 5.0(razor), Angular 4, Typescript, Twitter Bootstrap, Linq 4.0 ,MySQL 5.7 etc.

**Project Name: Workers Management System (Singnet Software Solutions Pvt Ltd)**

**Mar 2016 – Mar 2017**

Responsibilities

- Mentored junior developers.
- Implemented push notification across application.
- Implemented login authentication.
- Responsible for implementing and integrating new modules to the existing application.
- Used Web API.
- Used stored procedures and sql functions extensively in the application.

Environment C#, ASP.NET MVC 5.0(razor), Knockoutjs(JavaScript Framework) ,Kendo UI, Twitter Bootstrap , Linq 4.0 ,SQL Server 2012 etc.

**Project Name: UNVEYL (SOD Technologies Pvt Ltd,Info-park)**

**Nov 2015 – 2016**

Responsibilities

- Handled Individual Modules of a project.
- Implemented Message functionality between users.
- Improvised Registration process.
- Responsible for implementing and integrating new modules to the existing application.
- Created API requests for third party application (Android App).

Environment C#, ASP.NET MVC 5.0(razor), Knockoutjs(JavaScript Framework), Twitter Bootstrap , Linq 4.0 ,SQL Server 2012 etc.

**Project Name: Refcruit (HR management system) (Context Mind Inc)**

**Oct 2013 – 2014**

Responsibilities

- Handled Individual Modules of a project.
- Implemented Message functionality between users.
- Improvised Registration process.
- Responsible for implementing and integrating new modules to the existing application.
- Created API requests for third party application (Android App).

Environment ASP.Net MVC 4.0 Razor, ADO .Net, Entity Framework, Linq 4.0 , JavaScript, JQuery, Ajax, Xml, HTML , CSS, Bootstrap, Knockoutjs,,SQL Server 2012 etc.

Project Name: **Wheedle (E-commerce Management System )** (SOD Technologies Pvt Ltd)

**Nov 2012 – 2013**

Responsibilities

- Managed the module Job portal from system analysis till the implantation level.
- Managed bug fixing and testing of the entire project.
- Created generic functions which can be used throughout the project.
- Analyzed the system performance and found solution and implemented it.
- Completed the whole SDLC from the system analysis till the implementation of the project.

Environment ASP.Net MVC 3.0 ASPX , JavaScript, JQuery, Ajax, HTML , CSS,UI ,SQL Server 2008 etc.

---

## **DECLARATION**

---

I hereby declare that all the details mentioned above are in accordance with the truth and fact as per my knowledge and I hold the responsibility for the correctness of the above-mentioned particulars.
